## MEMORANDUM FOR THE RECORD

SUBJECT: Destroyer System for [ ] Aircraft

25X1

1. On 12 May 1959 [ ] (DPD/Development Branch) met with [ ] of this division, to discuss our destroyer system.

25X1

25X1

2. [ ] stated that the [ ] aircraft have been flying 1½ years without destroyer systems. He personally feels that all the aircraft should have destroyer systems; however, some people do not feel that they are necessary. We all agreed that our system should be ready to install if we are asked to do so.

25X1

25X1

3. As a final test for our system, we will make a complete installation in a similar aircraft [ ] Mock-ups will be used for the target equipment but the rest of the system will be live. This test will allow observers to see how the destroyer system works and the amount of damage to the plane and equipment.

25X1

4. When the [ ] tests are complete, a dummy system will be installed in the test aircraft at [ ] This will be to work out the small details and insure that the installation satisfies Air Force specifications. The system will be such that all explosive charges can be removed from the airplane; however, the primacord will be permanently installed.
